Achieve Optimal Results & Return Home Quickly!

High-Quality Care:

It is a fundamental right for a patient to choose their preferred rehab facility as long as it does not delay discharge from the hospital. Patients should carefully consider quality of care, patient satisfaction surveys and efficiency of care along with location.

The Brothers of Mercy has achieved the highest 5-star rating from the Centers for Medicare and Medicaid services without fail from May 2014 - January 2024.

Clinical Services:

- Skilled Nursing Care & Therapy
- Blood & Lab testing, EKG, X-Ray, Imaging & Doppler Studies
- IV therapy, Medications & Wound Care
- Oxygen & Respiratory Services
- Patient & Family Education

Clinical Staff:

- Primary Care Physicians
- Nurse Practitioners
- Physician Assistants
- Physician Consultants
- Registered & Licensed Nurses
- Certified Nurses Assistants
- Social Workers
- Physical, Occupational & Speech Therapists
- Behavioral Health Specialists

Dedicated Rehab for You!

“After a stroke, I couldn’t even raise my arm when I got here. Now, I’m ready to get back to my veggie garden and mow the lawn! The therapy staff was amazing. They are very caring, concerned and patient. I made such great progress that it was encouraging for other patients to keep improving in their rehab.”

-- Joan, Akron

Disease State Management:

- Cardiac, Pulmonary, Orthopedic
- Neurologic, Neurosurgery, Diabetes
- Vascular, Skin & Wound Care
- Post-Surgical Care

Patient & Family Satisfaction:

The New York State Department of Health surveyed The Brothers of Mercy in January 2024 and our rehab center achieved a 100 percent satisfaction response upon interviewing more than 75 residents, patients and families.

Real life rehab designed to get you back to real life.
