Interesting Facts About the Need for Senior Care & Housing

By Peter Eimer, CEO

The fall season is a good time to plan for the future. A good way to start planning is to take a look at where the senior care and housing market is and how it is evolving. Attending some recent conferences, I brought back some interesting information:

- The Brothers of Mercy is the 37th-largest Catholic single-site nonprofit senior care campus in the United States!
- Life expectancy doubled from 1900 to 2000.
- Age 100 will be commonplace by 2050.
- The first person to live to 150 has been born.
- Senior Housing Occupancy is at an all-time high.
- The first baby boomers will turn 80 in 2026.
- The year 2030 marks a demographic turning point for the U.S.– All baby boomers will be older than 65 (one in every five Americans will be retirement age).
- By the year 2035, older adults will outnumber children for the first time in U.S. history.
- As a larger percentage of the population ages, there will be fewer people to care for seniors. Caregiver support ratio – 6:1 today – 4:1 by 2030 – 3:1 by 2050.
- Demand for senior care is sky rocketing, while the caregiver labor force is shrinking.
- There is a huge demand for new senior housing to be built.
- People of all ages from GenXer's to Baby Boomers to Millennials to GenZer's fear running out of money more than they fear death.
- · Lifespan became Healthspan, now it's "Wellspan"

You could say people are living longer, want to live healthier and want to have a purpose. While the number of seniors continues to grow, the workforce continues to shrink. This is all while New York State continues to underfund Medicaid while we supply more than 40,000 days of care annually to Medicaid residents.

Now that is a conundrum!

We are fortunate to have a committed board of directors, a host of volunteers, outstanding team members, an impactful foundation council and the incredible legacy that the Brothers have left our campus.

The Brothers of Mercy campus currently includes 211 independent senior living apartments, 96 assisted living and memory care residences and 240 skilled nursing and rehabilitation rooms. That is a total of 547 units and we may need more as demand will continue to outpace supply going forward.

In the meantime, our goal is to continue to maintain the 5-Star quality rating, the highest distinction in New York State, so that our current and future residents and their families enjoy peace of mind knowing that they are getting the best care there is.

Now retired, Brother Fidelis Verrall was our Director of Spiritual Care on The Brothers of Mercy Wellness Campus. In his capacity, he coordinated and supervised all spiritual care services and sacraments. He was on our Regional Council and a longtime member of the Board of Directors.

Brother Fidelis grew up and attended school in North Tonawanda.

After high school, he worked in a research lab. In 1961, he was drafted into the U.S. Army during the Berlin crisis, when John F. Kennedy was president. He was on the east-west German border as a guard for three years when they put up the Berlin Wall. "The Russians were looking at us, and we were looking at them through the binoculars, so there was always tension," Brother Fidelis recalled.

After Brother Fidelis left the Army, he was called to look at The Brothers of Mercy congregation as a vocation. "I said to myself, I'm going to try religious life and give myself four months. If it's for me, fine and if it isn't, goodbye. Here I am all these years later, and I think it's for me," said Brother Fidelis.

Brother Fidelis was a Registered Nurse when he began his tenure as Spiritual Care Director in 1999. He was responsible for addressing the spiritual care needs of the evolving population of the Skilled Nursing & Rehabilitation Center. He coordinated Mass, Rosary, interfaith services, distributed communion and offered spiritual guidance to many residents on our campus.

Brother Fidelis is most proud of the growth we've experienced on the campus over the years. He believes that we provide help and care for those who really need it. Brother Fidelis believes that The Brothers of Mercy have had a great impact on our community, and he feels the campus has greatly influenced the quality of care for Western New Yorkers. When people are sick and dying, The Brothers were the pioneers of compassionate senior care.

Brother Fidelis loves to dance, and his favorite was doing the polka. Congratulations to Brother Fidelis on 60 years as a Brother of Mercy!

Weinberg Campus Transfer Update

 $\star \star \star \star \star$

By Jennifer Blackchief, Chief Operating Officer

Over the last few weeks, our team members, residents and families have been hearing about the Weinberg Campus Rosa Coplon Living Center closing. This is one of the century-old nursing homes in New York State that have succumbed to financial pressures. While we can't speak directly to their circumstances, we know that state funding restrictions make it very difficult for quality providers like us to maintain the standards to which we hold ourselves.

Insufficient State Funding

The state only funds about 70% of the cost of a Medicaid resident in a nursing home. Along with others from The Brothers of Mercy, I continue to be directly involved in advocacy efforts to encourage common-sense regulation and appropriate payment methodologies. In no other business does a service provider get paid the same amount as they did over a decade ago. We strive to provide the highest quality of care, increase wages for our deserving team members and improve our facilities, all while New York State continues to keep base rates flat and make other cuts. In March, state officials proposed a Medicaid reimbursement rate increase that would help to rectify a 16-year funding shortage. Thus far, it has not passed.

New York has cut more than \$2 billion in essential funding to long-term care providers. There are so many complicated factors that go into reimbursement that I would need this entire edition to describe the methodology. The cuts continue to exacerbate New York's long-term care workforce crisis, which will only continue to grow given that the State's population of 65 and older has grown about 24% over the last 10 years.

The state's failure to provide sufficient Medicaid reimbursement rate impedes our ability to compete in the labor market. Consequently, the majority of the nursing homes in our state are unable to meet the staffing mandate that went into effect in 2022. As a result, they are facing financial penalties, which is a circular argument I will never understand. The Brothers of Mercy is proud that we are currently meeting or exceeding that standard, but it does not come without a tremendous amount of attention, commitment, expense and perhaps a dose of divine intervention.

Helping Friends and Neighbors

We have strategically left 30-50 bedrooms unoccupied over the last couple of years, due to the reimbursement and staffing struggles. However, when we learned of the impending closure of the Weinberg Campus Rosa Coplon Living Center, the team overwhelmingly agreed to do what we could to help those who live and work there. This led us to open a household or "wing" of our building for people to call home.

When requested, we evaluated each person and offered a bedroom to as many individuals as we could. Over the course of two weeks, we met, packed and moved sixteen people to our community. It has been our privilege to help them in this challenging time. It has been equally heartbreaking to witness the profound loss felt by residents, their families and the staff who have cared for them. We are proud to be part of the Western New York community and we always pulls together in difficult times, and this time was no exception.

There are so many people at The Brothers of Mercy to thank for their time and commitment to making these transitions a success. Every discipline was involved. Our facilities and housekeeping teams got rooms ready at a breakneck pace. Admissions, Social Work and Therapy not only worked inside of our building, but came with me to Weinberg Campus to evaluate, pack and move. Activities and friends from Sacred Heart Home rearranged schedules so transportation could be provided timely and at no cost to most of our new residents. The trip came with good music and time getting to know one another. Caregivers, schedulers, leaders and many others greeted and helped people settle in, ensuring delivery of the quality care they deserve. In the next Campus Newsletter, we plan to share a few short stories from the impacted individuals and what our commitment has meant to them.

How can you help?

You can advocate with us by visiting <u>Leadingageny.org/advocacy</u>. While the State Fiscal Year 2023-24 Budget provides a 6.5-7.5% increase to operating rates, this increase covers only a small fraction of the cost growth providers have experienced since 2007. Please join us in urging state legislators to pass A.5905-A (Woerner)/S.6914 (Rivera), and establish a long-term solution to the chronic underfunding of nursing homes! Sacred Heart Featured on BuffaloNews.com

26-year employee Mindee McDonald, administrator of its Sacred Heart Home Assisted Living & Memory Care community, poses with one of the residents, Betty, who has lived onsite for 36 years.

Helping navigate the challenges of dementia care in the Northtowns

When it comes to caregiving, the details matter. That is why Sacred Heart Home Assisted Living & Memory Care community features subtle touches for the comfort and health of residents.

The community is organized into six "wellness neighborhoods," and each 16-person neighborhood has private suites centered around a shared dining room. The spaces are designed to evoke the atmosphere of a household, sharing similar layouts and routines while providing different levels of support.

As residents' individual needs change, they can move into a neighborhood that offers the degree of assistance they need.

"Aesthetically, it looks the same and operates the same, easing the transition," explains Mindee McDonald, RN, BSN, administrator of Sacred Heart Home.

The memory care and assisted living community is part of the larger Brothers of Mercy Wellness Campus in Clarence, which also includes facilities for independent living, rehabilitation and outpatient care. In addition, the Russell J. Salvatore Health Center featuring the University at Buffalo Aging & Resiliency Research Center, a chiropractic office, mental health counseling and more is opening this fall.

"We're one of very few assisted living centers on a campus setting," McDonald says. "That helps the residents much more when they need alternate care, whether that be rehab or skilled nursing."

The Brothers of Mercy began providing compassionate care to Western New Yorkers 100 years ago when they first arrived from Germany, and Sacred Heart Home traces its history as the first care facility on the Clarence campus to 1952. The new facility, purpose-built to offer assisted living and memory care services, opened in 2020.

"Sacred Heart Home has always been known for quality and person-centered care that's driven by the Brothers of Mercy mission," says McDonald.

That person-centered approach is evident in the layout of Sacred Heart Home's assisted living wing, which has family-accessible spaces, and its memory care wing, which offers sensory-supportive design and circadian rhythm lighting.

"The tone and brightness of the light is set up according to the day of the year and adjusted to keep balance, to promote continuity for the residents," McDonald says.

McDonald played a role in planning the new community and is familiar with the intricacies of attending to the diverse needs of residents. She began her career with The Brothers of Mercy working in the kitchen as a teenager. She earned her medical credentials and served in several roles, including director of health services, before being promoted to her current position leading the community.

At Sacred Heart Home, staff support can include everything from medication management to leading recreation programs. Bingo is particularly popular, as are musical performances and talks by guest speakers. Daily enrichment activities for residents with dementia and memory care needs are tailored to their abilities and interests, and McDonald says the staff finds them just as gratifying.

"The most rewarding part of my work

is the positive difference that my team makes in the lives of the residents and their families," she says.

Montabaur Heights Update:

 $\star \star \star \star \star$

Montabaur Heights residents have been keeping busy and enjoying a variety of events, entertainment, and celebrations. The 2024 Summer Olympic Games were viewed with great excitement as **Anita Alvarez (daughter of staff member David Alvarez)** and her fellow teammates on the USA Artistic Swim Team won the silver medal!

Then came the first-ever Montabaur Heights Veterans Resource Fair in which 13 organizations participated. This well-attended event attracted residents as well as individuals from throughout the region. Next up was the Montabaur Picnic, a popular annual event which featured music, games, and delicious picnic fare.

For a week in September, the lobby was filled with residents and visitors alike eager to preview the beautiful raffle baskets for Oktoberfest. Soon after that it was time for the Western Night theme dinner where plenty of cowboy hats could be seen and "Howdy, Partner!" greetings could be heard. Again this year, the Halloween Party was a "howling" good time with creative costumes and a "bobbing for apples" contest.

"Sweater weather is better together" at Montabaur Heights and we've certainly had a fall full of fun!

Human Resources Update:

The Brothers of Mercy HR department attended a job fair for Practical Nursing students on Monday, November 4, at Erie 1 BOCES Education Campus. It was a great opportunity to meet the graduating students.

The Brothers of Mercy is also proud to be a member of the Erie 1 BOCES CTE Health Careers Advisory Council. Our Nursing Educators as well as Human Resources are regular attendees at quarterly meetings. The council allows select Healthcare business partners in the community to meet with BOCES to discuss staffing needs we have and what educational programs could be added or enhanced at BOCES to meet those needs.

Meet Susan Villiers, our Outpatient Therapy Clinic Client of the Month!

How did you hear about our clinic?

My primary physician recommended I come to The Brothers of Mercy Outpatient Clinic for Physical Therapy.

What made you choose The Brothers of Mercy for therapy?

The Brothers of Mercy has a great reputation for other things and I live nearby so it was an obvious choice for me.

Have you ever needed therapy services in the past? If yes, how has your experience been different at this clinic?

Yes, I have. At the other clinic, multiple people were treated by one therapist. I like the one-on-one attention here. It allows the therapist to focus on my form and keep me company while I perform my exercises.

What advice would you give to someone who is unsure about starting a therapy program?

Therapy is necessary in some situations. If you don't do the therapy, you may not recover fully.

How would you sum up your overall impression of the clinic's atmosphere, the quality of therapy services you have received and the expertise of the staff? I like the people that work here. Everyone is friendly

and accommodating. It's an enjoyable place to come for therapy.

Meet Howard Litz, our Outpatient Therapy Clinic Client of the Month!

Howard Litz (USMC Veteran, 1966-68, Vietnam)

How did you hear about our clinic?

I heard about the clinic through word of mouth. My cousin worked at The Brothers of Mercy in the past and strongly recommended it for therapy.

What made you choose Brothers of Mercy for therapy?

I was not satisfied with other outpatient therapy clinics as I felt I did not make good progress so I thought I would try something different. I like Brothers of Mercy because of the atmosphere (one-on-one treatment). I told my wife after my first evaluation that I liked it here, and it was much better than previous experiences. I felt comfortable and like my problems would be addressed right from the beginning.

Have you ever needed therapy services in the past? If yes, how has your experience been different?

Yes, other places put you in more of a "group therapy" session as opposed to one-on-one care. Therapists were seeing 3-4 patients at a time and did not provide the attention I needed. I did not make good progress and my needs were not always attended to. I quit prematurely because I did not see the value in coming.

What advice would you give to someone who is unsure about starting a therapy program?

Give The Brothers of Mercy a chance to help you. My quality of life has improved since coming to therapy.

In a few words, how would you sum up your overall impression of the clinic's atmosphere, the quality of therapy you have received and the expertise of the staff? I feel the therapists work with you and really care about you getting better. I bring up a problem and that's what my therapist concentrates on. It does not feel like you have to come for therapy indefinitely like some other types of treatment. They have goals to get you back on your feet so you can continue with your life.
